

Sit Tax-Free Income Fund

 Sit Investment Associates

Sit Mutual Funds

As of June 30, 2023

800-332-5580

www.sitfunds.com

INVESTMENT OBJECTIVE

High current income that is exempt from federal income tax consistent with preservation of capital.

INVESTMENT STRATEGY

The Fund seeks to achieve its objective by investing primarily in municipal securities that generate interest income that is exempt from both federal regular income tax and federal alternative minimum tax. In selecting securities for the Fund, the Adviser seeks securities providing high tax-exempt income. The Adviser attempts to maintain an average effective duration for the portfolio of approximately 3 to 8 years.

INVESTMENT STYLE

		Duration		
		Short	Interm	Long
Quality	High			
	Mid			
	Low			

INDUSTRY EXPERIENCE

The Fund is managed by a team of investment professionals led by:

- Paul J. Jungquist, CFA, 29 years
- Todd S. Emerson, CFA, 28 years
- Kevin P. O'Brien, CFA, 20 years

INVESTMENT ADVISER

Sit Investment Associates, Inc.

- Founded in 1981
- Employee-owned firm
- \$15.3 billion in assets under management
- Sole business is investment management

Performance figures are historical and do not guarantee future results. Investment returns and principal value will vary, and you may have a gain or loss when you sell shares. Current performance may be lower or higher than the performance data quoted. Contact the Fund for performance data current to the most recent month-end. Returns include changes in share price as well as reinvestment of all dividends and capital gains. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Management fees and administrative expenses are included in the Fund's performance. Returns for periods greater than one year are compounded average annual rates of return.

*Due to the Y Share's inception date of 6/1/21, the Since Inception returns of the Y share and its benchmarks are not annualized and reflect performance since 6/1/21.

TOTAL RETURN BY CALENDAR YEAR (%)

*Due to the Y Share's inception date of 6/1/21, the 2021 calendar year returns of the Share and its benchmarks reflect performance since 6/1/21.

YIELDS (%)

	30-Day SEC Yield	Tax-Equivalent 30-Day Yields	
		38.8% Tax Rate	40.8% Tax Rate
Class S Shares	3.06	5.01	5.18
Class Y Shares	3.31	5.41	5.59

The SEC yield reflects the rate at which the Fund is earning income on its current portfolio of securities. Tax-Equivalent Yields include the 3.8% net investment income tax for the top two brackets, and represent the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after tax basis at a specified tax rate.

(2) Expense ratios are as stated in the prospectus dated August 1, 2022 and include Acquired Fund Fees and Expenses which represent fees and expenses incurred indirectly by the Fund as a result of its investment in shares of investment companies.

See important information on the reverse side including a discussion of the **risks** of investing in the Fund and **definitions** of terms.

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved.

Fixed-income securities present issuer default risk, and the revenue bonds in which the Fund invests may entail greater credit risk than the Fund's investments in general obligation bonds. Market risk may affect a single issuer, sector of the economy, industry or the market as a whole. The Fund's municipal securities may be particularly affected by the political, demographic, legislative and economic conditions and developments in the issuing states and their political subdivisions, and the Fund may be more adversely affected than other funds by future changes in federal or state income tax laws. The Fund invests a significant portion of its assets in certain sectors including health care facility bonds, housing authority bonds, and education bonds, and therefore the Fund may be more affected by events influencing these sectors than a fund that is more diversified across numerous sectors. Call risk exists as a fixed-income security may be called, prepaid or redeemed before maturity and that similar yielding investments may not be available for purchase. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. Falling rates may lower the income earned by the Fund and result in the Fund investing in lower yielding securities, lowering the fund's income and yield. Federal and state tax rules apply to capital gain distributions and any gains or losses on sales. Income may be subject to state, local or alternative minimum taxes. There may be limited liquidity for certain fixed-income securities. The Fund may hold securities for which prices from pricing services may be unavailable or are deemed unreliable.

More information on these risks considerations, as well as information on other risks to which the Fund is subject, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or at www.sitfunds.com. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The **Bloomberg 5-Year Municipal Bond Index** is an unmanaged index of long-term, fixed-rate, investment-grade, tax-exempt bonds representative of the municipal bond market. It is not possible to invest directly in an index. **Duration** is a measure of estimated price sensitivity relative to changes in interest rates. Portfolios with longer durations are typically more sensitive to changes in interest rates. For example, if interest rate rise 1%, the market value of a security with an effective duration of 5 years would decrease by 5%, with all other factors being constant. The correlation between duration and price sensitivity is greater for securities rated investment-grade than it is for securities rated below investment grade. There are multiple accepted methodologies utilized across the industry to calculate duration estimates. The duration reported herein are the Effective Duration estimates calculated by the Adviser, which are based on assumptions by the Adviser and are subject to a number of limitations. **Effective duration** is calculated based on historical price changes of securities held by the Fund utilizing empirical historical pricing, estimated average life yield, estimated average life price, and estimated average life date as opposed to maturity, which the Adviser believes is a more accurate estimate of price sensitivity provided interest rates remain within their historical range. Investments in debt securities typically decrease in value when interest rates rise. The risk is usually greater for long-term debt securities. Effective Durations reported herein are calculated by the Adviser and may differ from duration estimates reported in other materials that are based on different methods of calculating duration utilizing different assumptions.
