* Effective with this report, and pursuant to new regulatory requirements, the Bloomberg Municipal Bond Index replaced the Bloomberg 5-Year Municipal Bond Index as the Fund's primary benchmark to represent a broad-based securities market index. The Fund continues to use the Bloomberg 5-Year Municipal Bond Index as an additional benchmark.

The Fund primarily invested in municipal securities, offering interest income exempt from federal regular income tax and Minnesota regular personal income tax. The tables reflect the investment makeup of the Fund as of September 30, 2024. Portfolio holdings are subject to change.

Fund Statistics (as of 09/30/24)		Quality Ratings (% of Net Assets)	
Total Net Assets	\$405,136,629	AAA	10.4%
# of Portfolio Holdings	271	AA	32.9

Average Maturity	16.2 Years	Less Than BBB	9.5
Effective Duration ¹	5.9 Years	Not Rated	23.8
¹ Duration is a measure of estimated price sensitivity relative to changes in interest rates. Portfolios with longer durations are typically more sensitive to changes in interest rates. For example, if interest rates rise by 1%, the fair value of a security with an effective duration of 5 years would decrease by 5%, with all other factors being constant. The correlation between duration and price sensitivity is greater for securities rated investment-grade than it is for securities rated below investment-grade. Duration estimates are based on assumptions by Sit Investment Associates, Inc. (the "Adviser") and are subject to a number of limitations. Effective duration is calculated based on historical price changes of securities held by the Fund, and therefore is a more accurate estimate of price sensitivity provided interest rates remain within their historical range.
