Sit Quality Income Fund

Fund Overview

This annual shareholder report contains important information about Sit Quality Income Fund for the period of April 1, 2024 to March 31, 2025. You can find additional information about the Fund at www.sitfunds.com/documents. You can also request this information by contacting us at 1-800-332-5580.

What were the Fund's costs for the last year?

(based on a hypothetical \$10,000 investment)

Class Name	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
Sit Quality Income Fund - Class S	\$82	0.80%

How did the Fund perform in the past 12 months and what affected its performance?

For the 12-month period ended March 31, 2025, the Sit Quality Income Fund - Class S returned +5.66%, outperforming the Bloomberg U.S. 1-3 Year Gov't/Credit Index's return of +5.61%. The Federal Reserve reduced short-term interest rates by 1.00% which caused the yield curve to steepen and prices on shorter term securities to increase. The Fund benefited from a strong income advantage relative to the benchmark and was the primary source of outperformance. The Fund's allocation to corporate bonds outperformed as the duration of those securities were generally longer than the benchmark and spreads narrowed causing prices to increase. The Fund reduces interest rate risk by using futures and options on Treasury securities. The use of futures and options was effective in providing stability to the Fund's net asset value but detracted from overall performance.

How did the Fund perform over the last 10 years?

The Fund continues to use the Bloomberg 1-3 Year Government/Credit Bond Index as an additional benchmark.

The line graph above shows the value of a hypothetical \$10,000 investment in the Fund over the past 10 fiscal years (or since inception if shorter). The graph above and table below are total returns, which assume the reinvestment of dividends and capital gains, if any. Neither the Fund's returns nor the index returns reflect the deduction of taxes a shareholder would pay on Fund distributions or the redemption of Fund shares. **The Fund's past performance is not a good predictor of the Fund's future performance.** Updated performance information is available at www.sitfunds.com/documents.

¹ Duration is a measure of estimated price sensitivity relative to changes in interest rates. Portfolios with longer durations are typically more sensitive to changes in interest rates. For example, if interest rates rise by 1%, the fair value of a security with an effective duration of 5 years would decrease by 5%, with all other factors being constant. The correlation between duration and price sensitivity is greater for securities rated investment-grade than it is for securities rated below investment-grade. Duration estimates are based on assumptions by Sit Investment Associates, Inc. (the "Adviser") and are subject to a number of limitations. Effective duration is calculated based on historical price changes of securities held by the Fund, and therefore is a more accurate estimate of price sensitivity provided interest rates remain within their historical range.

How did the Fund perform in the past 12 months and what affected its performance?

For the 12-month period ended March 31, 2025, the Sit Tax-Free Income Fund - Class S returned +3.03%, outperforming the Bloomberg 5-Year Municipal Bond Index's return of +2.47%. Both the U.S. Treasury and municipal yield curves steepened with yields on long bonds backing up 25 and 55 basis points respectively. As such, shorter and intermediate duration bonds generally outperformed longer bonds. Thus, the Fund was disadvantaged by a larger weighting of long duration bonds versus the benchmark, somewhat offset by its hedge in U.S. Treasury futures. Lower credit quality performed better so the Fund benefited from exposure to BBB-rated and below investment grade bonds as well as its significant allocation to non-rated bonds. From a sector perspective, the Fund's overweight in multi-family housing bonds, with a large concentration in senior living, and other revenue bonds including land secured, strongly outperformed. Conversely, the Fund's significant weighting in single-family mortgage revenue bonds lagged the benchmark.

¹ Variable rate security. Rate disclosed is as of March 31, 2025. Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions, or, for mortgage-backed securities, are impacted by the individual mortgages which are paying off over time. These securities do not indicate a reference rate and spread in their descriptions.

¹⁴ Step Coupon: A bond that pays a coupon rate that increases on a specified date(s). Rate disclosed is as of March 31, 2025.

Numeric footnotes not disclosed are not applicable to this Schedule of Investments.

NOTES TO FINANCIAL STATEMENTS

Year Ended March 31, 2025

(1) Organization

The Sit Mutual Funds covered by this report are Sit U.S. Government Securities Fund, Sit Quality Income Fund, Sit Tax-Free Income Fund and Sit Minnesota Tax-Free Income Fund (each a “Fund” and collectively, the “Funds”). The Funds are no-load funds, and are registered under the Investment Company Act of 1940 (as amended) as diversified (except Sit Minnesota Tax-Free Income Fund which is non-diversified), open-end management investment companies, or series thereof. The Sit Quality Income Fund, Sit Tax-Free Income Fund and Sit Minnesota Tax-Free Income Fund are series funds of Sit Mutual Funds II, Inc. Each Fund has 10 billion authorized shares of capital stock. Shares in the Sit U.S. Government Securities Fund have a par value of \$0.01, and shares in other Funds have a par value of \$0.001. This report covers the bond funds of the Sit Mutual Funds.

The investment objective for each Fund is as follows:

Fund	Investment Objective
U.S. Government Securities Fund	High current income and safety of principal.
Quality Income Fund	High current income and safety of principal.
Tax-Free Income Fund	High current income that is exempt from federal income tax, consistent with the preservation of capital.
Minnesota Tax-Free Income Fund	High current income that is exempt from federal regular income tax and Minnesota regular personal income tax, consistent with the preservation of capital.

The U.S. Government Securities Fund, Quality Income Fund and Tax-Free Income Fund offer Class S and Class Y shares. Both classes of shares have identical voting, dividend and liquidation rights. Income, expenses (other than class specific expenses) and realized and unrealized gains or losses on investments are allocated to each class of shares based upon its relative net assets.

(2) Significant Accounting Policies

The Funds are investment companies and follow accounting and reporting guidance under Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 946, “Financial Services-Investment Companies”. The following is a summary of significant accounting policies consistently followed by the Funds in the preparation of their financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”).

Investments in Securities

Investment securities are carried at fair value based upon closing market quotations on the last business day of the period. Investments in securities traded on national or international securities exchanges are valued at the last reported sales price prior to the time when assets are valued. Equity securities traded on the over-the-counter market are valued at the last reported sales price or if the last sales price is not available, at the last reported bid price. The sale and bid prices or prices deemed best to reflect fair value quoted by dealers who make markets in these securities are obtained from independent pricing services. Consistent with the Funds’ valuation policies and procedures, the current fair value of certain fixed income securities is provided by an independent pricing service. Fixed income securities for which prices are not available from an independent pricing service but where an active market exists are valued using market quotations obtained from broker-dealers or quotation systems. Securities for which market quotations are not available, such as private placement securities, are valued at fair value according to methods selected in good faith by Sit Investment Associates, Inc. (the “Adviser” or “SIA”) and may include dealer-supplied valuations or other inputs and assumptions that pricing services would typically utilize. Short-term investments of sufficient credit quality with maturities of 60 days or less when acquired, or which subsequently are within 60 days of maturity, are valued at amortized cost, which approximates fair value. Options and futures contracts entered into and held by the Funds are valued at the close of the securities and commodities exchange on which they are traded.

Security transactions are accounted for on the date the securities are purchased or sold. Gains and losses are calculated on the identified cost basis. Interest, including level-yield amortization of long-term bond premium and discount, is recorded on the accrual basis. Amortization of long-term bond premium and discount is calculated using the effective interest rate method. Dividends received from closed-end fund holdings are included in Dividend Income and distributions from capital gains, if any, are included in Net Realized Gain (Loss).

Delivery and payment for securities which have been purchased by the Funds on a forward commitment or when-issued basis can take place two weeks or more after the transaction date. During this period, such securities are subject to market fluctuations and may increase or decrease in value prior to delivery.

The Minnesota Tax-Free Income Fund concentrates its investments in Minnesota, and therefore may have more credit risk related to the economic conditions in the state of Minnesota than a portfolio with broader geographical diversification.

Derivative Instruments

The Funds apply derivative instrument disclosure standards in order to enable investors to understand how and why the Funds use derivatives, how derivatives are accounted for, and how derivative instruments affect the Funds' financial statements.

To hedge interest rate risk, the Funds used Treasury options and futures traded on a U.S. exchange. Risks of entering into futures and options contracts include the possibility of an illiquid market and that a change in the value of the option may not correlate with changes in the value of the underlying securities.

The premiums paid for the options represent the cost of the investment and the options are valued daily at their closing price. The Funds recognize a realized gain or loss when the option is sold or expired. Option holdings within the Funds, which may include put options and call options, are subject to loss of value with the passage of time, and may experience a total loss of value upon expiration. With options, there is minimal counterparty risk to the Funds since they are exchange traded.

Upon entering into a futures contract, a Fund is required to deposit either cash or securities in an amount (initial margin) equal to a certain percentage of the contract value. Subsequent payments (variation margin) are made or received by the Fund each day. The variation margin payments are equal to the daily changes in the contract value and are recorded as unrealized gains and losses. The Fund recognizes a realized gain or loss when the contract is closed or expired. With futures contracts, there is minimal counterparty risk to the Fund since futures are exchange traded and the exchange's clearinghouse, as counterparty to all exchange-traded futures, guarantees the futures against default.

During the year ended March 31, 2025, the average volume of derivative activity, calculated on a quarterly basis, was as follows:

	Average Cost	Average Premium Received	Average Notional Amount
U.S. Government Securities Fund			
Purchased put options	\$304,471	\$ 169,508	\$43,019,100

Fair Value Measurements

The inputs and valuation techniques used to measure fair value of the Funds' net assets are summarized into three levels as described in the hierarchy below:

- Level 1 – quoted prices in active markets for identical securities. An active market for the security is a market in which transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis. A quoted price in an active market provides the most reliable evidence of fair value.
- Level 2 – debt securities are valued based on evaluated prices received from independent pricing services or from dealers who make markets in such securities. For corporate bonds, U.S. government and government agency obligations, and municipal securities the pricing services utilize matrix pricing which considers yield or price of bonds of comparable quality, coupon, maturity, and type as well as dealer supplied prices. For asset-backed securities and mortgage-backed securities, the pricing services utilize matrix pricing which considers prepayment speed assumptions, attributes of the collateral, yield or price of bonds of comparable quality, coupon, maturity, and type as well as dealer supplied prices. All of these inputs are derived principally from or corroborated by observable market data. An adjustment to any observable input that is significant to the fair value may render the measurement a Level 3 measurement.
- Level 3 – significant unobservable inputs, including the Adviser's own assumptions in determining the fair value of investments.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

At the end of each calendar quarter, management evaluates the Level 2 and 3 assets and liabilities for changes in liquidity, including but not limited to: whether a broker is willing to execute at the quoted price, the depth and consistency of prices from third party services, and the existence of contemporaneous, observable trades in the market. Additionally, management evaluates the Level 1 and 2 assets and liabilities on a quarterly basis for changes in listings or delistings on national exchanges. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Funds' investments may fluctuate from period to period. Additionally, the fair value of investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values the Fund may ultimately realize. Further, such investments may be subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities.

A summary of the levels for the Funds' investments as of March 31, 2025 is included with the Funds' schedules of investments.

Federal Taxes

The Funds' policy is to continue to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of their taxable income to shareholders. The Funds have recorded in their financial statements the full benefit of their tax positions taken in connection with the Registered Investment Company (RIC) qualification and distribution requirements of the Internal Revenue Code. Therefore, no income tax provision is required. Also, in order to avoid the payment of any federal excise taxes, the Funds will distribute substantially all of their net investment income and net realized gains on a calendar year basis.

Management has analyzed the Funds' tax positions taken in federal tax returns for all open tax years and has concluded that as of March 31, 2025, no provision for income tax would be required in the Funds' financial statements. The Funds' federal and state of Minnesota income and federal excise tax returns remain subject to examination by the Internal Revenue Service and state departments of revenue until such time as the applicable statute of limitations for audit has expired. For example, U.S. tax returns are generally subject to audit for three years from the date they are filed.

At March 31, 2025, the gross unrealized appreciation (depreciation) on investments and cost of investments on a tax basis for federal income tax purposes were as follows:

	Unrealized Appreciation	Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)	Cost (Proceeds) of Investments on a Tax Basis
U.S. Government Securities Fund - Investments	\$1,197,413	(\$12,066,218)	(\$10,868,805)	\$222,704,776
Quality Income Fund - Investments	1,257,120	(1,027,432)	229,688	134,283,589
Tax-Free Income Fund - Investments	929,905	(35,910,885)	(34,980,980)	179,660,710
Minnesota Tax-Free Income Fund - Investments	1,609,329	(61,264,292)	(59,654,963)	429,704,269

Minnesota Tax-Free Income Fund	—	49,570	(13,229,613)	(59,654,963)

Net capital loss carryovers and late year losses, if any, as of March 31, 2025, are available to offset future realized capital gains and thereby reduce future capital gains distributions. The Funds are permitted to carry forward capital losses for an unlimited period. Capital losses that are carried forward retain their character as either short-term or long-term capital losses. The net capital loss carryovers and the late year losses deferred as of March 31, 2025, were as follows:

	Unlimited Period of Net Capital Loss Carryover		Late Year Losses Deferred	Accumulated Capital and Other Losses
	Short-Term	Long-Term		
U.S. Government Securities Fund	\$5,923,311	\$24,372,735	—	\$30,296,046
Quality Income Fund	\$ 2,307,769	\$ 4,120,134	—	\$ 6,427,903
Tax-Free Income Fund	\$ 2,518,897	\$ 23,671,321	—	\$ 26,190,218
Minnesota Tax-Free Income Fund	—	\$ 13,229,613	—	\$ 13,229,613

Distributions

Distributions to shareholders are recorded as of the close of business on the record date. Such distributions are payable in cash or reinvested in additional shares of the Funds' capital stock. Distributions from net investment income are declared daily and paid monthly for the Funds. Distributions from net realized gains, if any, will be made annually for each of the Funds.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported results for the respective periods. Actual results could differ from those estimates.

Guarantees and Indemnifications

Under each Fund's organizational documents, its officers and directors are indemnified against certain liability arising out of the performance of their duties to each Fund. In addition, certain of each Fund's contracts with its service providers contain general indemnification clauses. Each Fund's maximum exposure under these arrangements is unknown since the amount of any future claims that may be made against each Fund cannot be determined and each Fund has no historical basis for predicting the likelihood of any such claims.

Cash Balance Credit Risk

The Funds may place portions of its uninvested cash with financial institutions in the United States, which are insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000 for each account holder. The Funds may be subject to credit risk to the extent amounts on deposit are in excess of the insured limits.

Segment Reporting

In November 2023, the FASB issued Accounting Standards Update 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures ("ASU 2023-07"), with the intent of improving reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses, allowing financial statement users to better understand the components of a segment's profit or loss and assess potential future cash flows for each reportable segment and the entity as a whole, thereby enabling better understanding of how an entity's segments impact overall performance. The Funds represent a single operating segment. Subject to the oversight and, when applicable, approval of the Board of Trustees, the Adviser acts as the Funds' chief operating decision maker ("CODM"), assessing performance and making decisions about resource allocation within the Funds. The CODM monitors the operating results as a whole, and the Funds' long-term strategic asset allocation is determined in accordance with the terms of its prospectus based on a defined investment strategy. The financial information provided to and reviewed by the CODM is consistent with that presented in the Funds' financial statements. Adoption of the new standard impacted the Funds' financial statement note disclosures only and did not affect the Funds' financial position or the results of its operations.

(3) Investment Security Transactions

The cost of purchases and proceeds from sales and maturities of investment securities, other than short-term securities, for the year ended March 31, 2025, were as follows:

(4) Affiliated Fees and Transactions

Investment Adviser

The Funds each have entered into an investment management agreement with Sit Investment Associates Inc., under which SIA manages the Funds' assets and provides research, statistical and advisory services, and pays related office rental, executive expenses and executive salaries. In addition, the Funds have entered into separate supervision and administration agreements with SIA. SIA also is obligated to pay all of the Funds' expenses (excluding extraordinary expenses, stock transfer taxes, interest, brokerage commissions, and other transaction charges relating to investing activities). The fees charged to each Fund by SIA are based on the average daily net assets of the Funds at the annual rate of:

	Investment Management Fees	Supervisory and Administrative Fees	Total Management Fees
U.S. Government Securities Fund Class S	0.20%	0.60%	0.80%
U.S. Government Securities Fund Class Y	0.20%	0.35%	0.55%

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of the Sit U.S. Government Securities Fund and Sit Quality Income Fund, Sit Tax-Free Income Fund, and Sit Minnesota Tax-Free Income Fund (each a Series of Sit Mutual Funds II, Inc.) (collectively, the Funds), including the schedules of investments, as of March 31, 2025, the related statements of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, and the related notes (collectively, the financial statements) and the financial highlights for each of the years or periods in the five-year period then ended. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Funds as of March 31, 2025, the results of their operations for the year then ended, the changes in their net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years or periods in the five-year period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Such procedures also included confirmation of securities owned as of March 31, 2025, by correspondence with custodians, transfer agents and brokers, or by other appropriate auditing procedures when replies were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. We believe that our audits provide a reasonable basis for our opinion.

FEDERAL TAX INFORMATION (Unaudited)

Sit Bond Funds

For corporate shareholders, the percentage of investment income (dividend income and short-term gains, if any), for each of the Funds that qualify for the dividends-received deductions for the period of April 1, 2024 to March 31, 2025 is as follows:

Fund	Percentage
U.S. Government Securities Fund	0.0%
Quality Income Fund	0.0
Tax-Free Income Fund	0.0
Minnesota Tax-Free Income Fund	0.0

For the year ended March 31, 2025, certain dividends paid by the Funds may be subject to a maximum tax rate of 15%, as provided by the Jobs and Growth Tax Relief Reconciliation Act of 2003. Of the distributions made by the following Funds, the corresponding percentages represent the amount of each distribution which may qualify for the 15% dividend income tax rate.

Fund	Percentage
U.S. Government Securities Fund	0.0%
Quality Income Fund	0.0
Tax-Free Income Fund	0.0
Minnesota Tax-Free Income Fund	0.0

There were no funds that designated amounts as long-term capital gain dividends during the year ended March 31, 2025. Distributable long-term gains are based on net realized long term gains determined on a tax basis and may differ from such amounts for financial reporting purposes.

For the year ended March 31, 2025, 98.8% and 98.7% of dividends were derived from interest on tax-exempt securities for the Tax-Free Income Fund and Minnesota Tax-Free Income Fund, respectively. This portion of exempt-interest dividends is exempt from federal taxes and should not be included in shareholders' gross income. Exempt-interest dividends may be subject to state and local taxes. Each shareholder should consult a tax adviser about reporting this income for state and local tax purposes.

Item 11: Statement Regarding Basis for Approval of Investment Advisory Contract.

During the Registrant's most recent fiscal year ended March 31, 2025, the Boards of Directors approved the renewal of the investment management agreements with the Sit Mutual Funds. Below is the Boards' discussion at the October 29, 2024 board meeting of the material factors and conclusions that formed the basis for the board's approval.

BOARD RE-APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

At their joint meeting held on October 29, 2024, the Boards of Directors (the "Boards") of the Sit Tax-Free Income Fund, Sit Minnesota Tax-Free Income Fund, Sit Quality Income Fund and Sit U.S. Government Securities Fund, Inc. (each a "Fund" and collectively, the "Funds") unanimously approved the continuation for another one-year period of the investment management agreements entered into by and between Sit Investment Associates, Inc. ("SIA") and each of Sit Mutual Funds II, Inc., dated November 1, 1992; and Sit U.S. Government Securities Fund, Inc., dated November 1, 1992 (collectively, the "Agreements").

In advance of the October 29, 2024 meeting, the Boards requested and received materials from SIA to assist them in considering the re-approval of the Agreements. The Boards, including all of the Directors who are not “interested persons” (as such term is defined in the Investment Company Act of 1940, as amended (the “1940 Act”)) of the Funds (the “non-interested Directors”)) approved the Agreements after discussion and consideration of various factors relating to both the Boards’ selection of SIA as the Funds’ investment adviser and the Boards’ approval of the fees to be paid under the Agreements. In evaluating the Agreements, the Directors relied upon their knowledge, resulting from their meetings and other interactions throughout the year, of SIA and its services and personnel. The Directors did not consider any single factor as controlling in determining whether to approve the Agreements, and the items described herein are not all-encompassing of the matters considered by the Directors.

Investment Adviser Criteria. The Directors began their analysis by discussing their criteria for determining the quality of an investment adviser. In this regard, the Directors noted that their criteria were similar to those used by institutional investors in evaluating and selecting investment advisers. The Directors discussed several factors in assessing the nature, extent and quality of the services performed by SIA, including the following:

Investment Philosophy and Process. The Directors considered SIA’s philosophy of managing assets. With respect to fixed income securities, the Directors noted that SIA stresses the consistent attainment of superior risk-adjusted returns using a conservative investment management approach that seeks to identify pricing anomalies in the market and manage portfolio duration.

With respect to fixed income securities, the Directors considered that SIA seeks securities with a special emphasis on interest income and significant stability of principal value. They noted that SIA’s investment style seeks to avoid excessive return volatility and generate consistent results over an economic cycle. The Directors also noted that a component of each Fund’s objective is to seek high current income. The Directors reviewed each Fund’s portfolio characteristics and noted that SIA has consistently managed each Fund in accordance with its investment objective. The Directors noted that, because the Funds emphasize interest income, they may at times not rank highly in total return comparisons with funds that pursue different investment objectives.

The Directors discussed SIA’s consistent and well-defined investment process. With respect to fixed income securities, the Directors considered that the SIA’s portfolio managers are responsible for implementing the strategy set forth in SIA’s duration targets and interest rate projections.

Investment Professionals. The Directors discussed the experience, knowledge and organizational stability of SIA and its investment professionals. The Directors noted that SIA’s senior professionals are actively involved in the investment process and have significant investment industry experience.

The Directors discussed the depth of SIA’s investment staff, noting that SIA has over 35 investment professionals. Given the investment products offered by SIA and SIA’s amount of assets under management, the Directors determined that SIA’s investment staff is well positioned to meet the current needs of its clients, including the Funds, and to accommodate growth in its number of clients and assets under management for the near future. The Directors concluded that the depth of SIA’s investment staff, and in particular senior management and investment analysts, is actually greater than the Funds currently require at their present asset size. The Directors noted that SIA has the resources of an investment firm with over \$17 billion in assets under management working for the benefit of the Funds’ shareholders. The Directors concluded that SIA has substantial resources to provide services to the Funds and that SIA’s services had been acceptable.

Investment Performance. The Directors reviewed and discussed the Funds’ investment performance on an absolute and comparable basis for various periods as discussed below. The Directors noted that the investment performance of the Funds has generally been competitive with indices and other funds with similar investment styles as the Funds, such as fixed income funds seeking to maximize income.

Corporate Culture. The Directors discussed SIA's corporate values and commitment to operate under the highest ethical and professional standards. They considered that SIA's culture is set and practiced by senior management of SIA who insist that all SIA professionals exhibit honesty and integrity. The Directors noted that SIA's values are evident in the services it provides to the Funds.

Review of Specific Factors. The Directors continued their analysis by reviewing specific information on SIA and the Funds, and the specific terms of the Agreements, including the following:

Investment Performance. The Directors reviewed the investment performance of each Fund for the 3-month, 1-year, and 5-year periods ended September 30, 2024, both on an absolute basis and on a comparative basis to indices and mutual funds within the same investment categories. As noted above, the Directors concluded that the investment performance of the Funds has been competitive in relation to funds with similar objectives and strategies.

Fees and Expenses. The Directors noted that the Funds pay SIA a monthly fee and SIA is responsible for all of the Funds' expenses, except for supervisory and administrative fees paid to SIA pursuant to Supervision and Administration Agreements, interest, brokerage commissions, portfolio transaction charges including acquired fund fees and expenses and certain extraordinary expenses. The Directors considered fees paid in prior years and the fees to be paid under the Agreements and Supervision and Administration Agreements, including both before and after fee waivers with respect to Sit Quality Income Fund.

The Directors compared each Fund's expense ratio to (i) the average and median expense ratios of no-load mutual funds within the same Morningstar, Inc. ("Morningstar") investment category, (ii) the average expense ratio for load funds within the Fund's Morningstar category, and (iii) the average expense ratio for all funds within the Fund's Morningstar category. The Directors also compared each Fund's management fees to (i) the average and median actual management fees of no-load mutual funds within the same Morningstar investment category, (ii) the average actual management fees for load funds within the Fund's Morningstar category, and (iii) the average actual management fees for all funds within the Fund's Morningstar category. Generally, the Funds' expense ratios were higher than or approximated the averages of the applicable category. The Directors noted that the Morningstar no-load categories include funds of various asset sizes, some of which are significantly larger in assets than the Funds. The Directors concluded that the fees paid by the Funds are reasonable and appropriate.

The Directors reviewed the extent to which the fees to be paid under the Agreements by each Fund may be affected by an increase in the Fund's assets, which included reviewing each Fund's current and historical assets and the likelihood and magnitude of future increases in the Fund's assets. The Directors agreed that it is appropriate that the Funds benefit from improved economies of scale as the Funds' assets increase. However, the Directors concluded that, given the amount of the Funds' current assets and the likelihood and magnitude of future increases in the Funds' assets, a graduated fee structure for each Fund was unnecessary at the time because the fees to be paid under the current Agreements were reasonable and appropriate.

The Directors reviewed the expenses paid by SIA relating to the operations of the Funds, and SIA's income with respect to its management of the Funds for the past two calendar years. The Directors concluded that the expenses paid were appropriate and that SIA's profit margin with respect to the management of the Funds was acceptable.

The Directors reviewed SIA's investment advisory fee schedule for investment management services provided to other clients. The Directors compared the services provided to the Funds and other clients of SIA and its affiliates and recognized that the Funds' expenses are borne by SIA except as noted above. The Directors concluded that the fees paid by the Funds in relation to the fees paid by other clients of SIA and its affiliates were appropriate and reasonable.

The Directors discussed the extent to which SIA receives ancillary benefits from its relationship with the Funds, such as soft dollar arrangements by which brokers provide research services to SIA as a result of brokerage generated by the Funds. The Boards concluded that any benefits SIA receives from its relationship with the Funds are well within industry norms, are reflected in the amount of the fees paid by the Funds to SIA and are appropriate and reasonable.

Non-Advisory Services. The Directors considered the quality of non-advisory services which SIA provides to the Funds (and their shareholders), including pursuant to the Supervision and Administration Agreements applicable to the Funds, and the quality and depth of SIA's non-investment personnel who provide such services. The Directors concluded that the level of such services and the quality and depth of such personnel are acceptable and consistent with industry standards.

Finally, the Directors considered the compliance staff and the regulatory history of SIA and the Funds and concluded that both are acceptable and consistent with industry standards.

Based on these conclusions, without any single conclusion being dispositive, the Directors, including the non-interested Directors by separate vote, determined that renewal of the Agreements was in the interest of each Fund and its shareholders.
