

# SUMMARY PROSPECTUS

AUGUST 1, 2025

## Sit Tax-Free Income Fund

TRADING SYMBOLS: SNTIX, SNTYX

Before you invest, you may want to review the Fund's prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus and other information about the Fund online at [www.sitfunds.com/open/documents.php](http://www.sitfunds.com/open/documents.php). You can also get this information at no cost by calling 800-332-5580 or by sending an email request to [info@sitinvest.com](mailto:info@sitinvest.com). If you purchase shares of the Fund through a broker-dealer or other financial intermediary, the prospectus will also be available from your financial intermediary. The Fund's prospectus and statement of additional information (SAI), both dated August 1, 2025, are incorporated by reference into this summary prospectus and may be obtained at no cost online at the website, phone number, or email address listed above.

## INVESTMENT OBJECTIVE

The Sit Tax-Free Income Fund (the "Fund") seeks high current income that is exempt from federal income tax consistent with preservation of capital.

## FEES AND EXPENSES OF THE FUND

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables or the examples below.

	Class S	Class Y
<b>Shareholder Fees</b> ( <i>fees paid directly from your investment</i> )	None	None
<b>Annual Fund Operating Expenses</b> ( <i>expenses that you pay each year as a percentage of the value of your investment</i> )		
Management Fees	0.80%	0.55%
Acquired Fund Fees and Expenses <sup>(1)</sup>	0.15%	0.15%
<b>Total Annual Fund Operating Expenses</b>	<b>0.95%</b>	<b>0.70%</b>

<sup>(1)</sup> The total annual fund operating expenses do not correlate to the ratio of expenses to average net assets shown in the Fund's Financial Highlights, which does not include Acquired Fund Fees and Expenses. Acquired Fund Fees and Expenses represent fees and expenses incurred indirectly by the Fund as a result of its investment in shares of investment companies.

## Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. It assumes that you invest \$10,000 in Class S shares of the Fund and \$1,000,000 in Class Y shares of the Fund for the time periods indicated, that your investment has a 5% return each year, that the Fund's operating expenses remain the same, and that you redeem all of your shares at the end of those periods. Although your actual costs and returns may be higher or lower, based on these assumptions your costs would be:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Class S	\$97	\$304	\$528	\$1,171
Class Y	\$7,175	\$22,460	\$39,082	\$87,281

## PORTFOLIO TURNOVER

The Fund pays transactions costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses in the example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 26.81% of the average value of the portfolio.

## PRINCIPAL INVESTMENT STRATEGIES

The Fund seeks to achieve its objective by investing primarily in municipal securities that generate interest income that is exempt from regular federal income tax. During normal market conditions, the Fund invests 100% (and, as a fundamental policy, no less than 80%) of its net assets in such tax-exempt municipal securities. The Fund may invest up to 20% of its assets in securities that generate interest income subject to federal alternative minimum tax (“AMT”). Investors subject to AMT treat the Fund’s income subject to AMT as an item of tax preference in computing their alternative minimum taxable income. Municipal securities are debt obligations issued by or for U.S. states, territories, and possessions and the District of Columbia, and their political subdivisions, agencies, and instrumentalities.

The Fund invests both in revenue bonds, which are backed by and payable only from the revenues derived from a specific facility or specific revenue source, and in general obligation bonds, which are secured by the full faith, credit and taxation power of the issuing municipality. The Fund invests a significant portion of its assets in housing-related securities, such as obligations of municipal housing authorities, which include single family and multi-family mortgage revenue bonds; revenue bonds of health care-related facilities; and revenue bonds of educational institutions, which include higher education institutions, public, private, and charter schools, and student loan-backed bonds.

The Fund primarily invests in securities rated investment-grade at the time of purchase or, if unrated, determined to be of comparable quality by Sit Investment Associates, Inc. (the “Adviser”). Investment-grade securities are rated within the four highest grades by the major rating agencies. However, the Fund may invest up to 30% of its assets in municipal securities rated below investment grade (commonly referred to as junk bonds) or determined to be of comparable quality by the Adviser, but the Fund may not invest in securities rated lower than B3 by Moody’s Investors Service, or B- by S&P Global Ratings or Fitch Ratings, or, if unrated, determined by the Adviser to be of comparable quality.

The Fund may invest in debt securities described herein that have not been registered for sale under the Securities Act of 1933 pursuant to Rule 144A (Rule 144A securities) which are determined to be liquid by the Adviser.

The Fund may invest in open-end investment companies (mutual funds) and closed-end investment companies which invest in the same types of securities in which the Fund may invest directly.

In selecting securities for the Fund, the Adviser seeks securities providing high tax-exempt income. The Adviser’s economic outlook and interest rate forecast, as well as its evaluation of a security’s structure, credit quality, yield, maturity, and liquidity, are all factors considered when making investment decisions.

The Adviser attempts to maintain an average effective duration for the portfolio of approximately 3 to 8 years. Duration is a measure of total price sensitivity relative to changes in interest rates. For example, if interest rates rise by 1%, the market value of a security with an effective duration of 3 years would decrease by 3%, with all other factors being constant. Portfolios with longer durations are typically more sensitive to changes in interest rates. The Adviser may hedge the Fund’s duration by investing in interest rate futures and options, but not in excess of 5% of the Fund’s net assets.

The Fund’s dollar-weighted average maturity will, under normal market conditions, range between 10 and 25 years. However, since the Fund’s securities are subject to various types of call provisions which make their expected average lives shorter than their stated maturity dates, the Adviser believes that the Fund’s average effective duration is a more accurate measure of the Fund’s price sensitivity to changes in interest rates than the Fund’s dollar-weighted average maturity.

## PRINCIPAL INVESTMENT RISKS

As with all mutual funds investing in bonds, the price and yield of the Fund may change daily due to interest rate changes and other factors. You could lose money by investing in the Fund.

The principal risks of investing in the Fund are listed below. Different risks may be more significant at different times, depending on market conditions or other factors.

- > **Interest Rate Risk:** The value of fixed income securities fluctuates as a result of the inverse relationship between the market value of outstanding fixed income securities and changes in interest rates. An increase in interest rates will generally reduce the market value of fixed income investments and a decline in interest rates will tend to increase their value. The Fund may face a

heightened level of interest rate risk in times of monetary policy change and/or uncertainty, such as when the Federal Reserve Board adjusts a quantitative easing program and/or changes rates. A changing interest rate environment increases certain risks, including the potential for periods of volatility, increased redemptions, shortened durations (i.e., prepayment risk) and extended durations (i.e., extension risk).

- > **Income Risk:** Income received from the Fund may vary widely over the short- and long-term and/or be less than anticipated if the proceeds from maturing securities in the Fund are reinvested in lower-yielding securities.
- > **Call Risk:** Many bonds may be redeemed (“called”) at the option of the issuer before their stated maturity date. In general, an issuer will call its bonds if they can be refinanced by issuing new bonds which bear a lower interest rate. The Fund may then be forced to invest the proceeds at lower interest rates, resulting in a decline in the Fund’s income.
- > **Credit Risk:** The issuers or guarantors of securities owned by the Fund may default on the payment of principal or interest, or experience a decline in credit quality, causing the value of the Fund to decrease.
- > **High-Yield Risk:** The Fund may invest up to 30% of its assets in municipal securities rated below investment-grade or if nonrated, determined to be of comparable quality by the Adviser. Debt securities rated below investment-grade are commonly known as junk bonds. Junk bonds are considered predominately speculative and involve greater risk of default or price changes due to changes in the issuer’s creditworthiness.
- > **Market Risk:** The market value of securities may fall, sometimes rapidly and unpredictably. These declines may be due to factors affecting a particular issuer, or the result of, among other things, political, regulatory, market, economic or social developments affecting the market(s) generally. Local, regional or global events such as war, acts of terrorism, other armed conflicts, tariffs, the spread of infectious illness, epidemics or other public health issues, recessions, market instability, or other events could have a significant impact on the Fund and its investments and potentially increase the risks described herein.
- > **Liquidity Risk:** The reduction in market making capacity and other market events has the potential to decrease liquidity and increase price volatility in the fixed income markets in which the Fund invests, particularly during periods of economic or market stress. As a result of this decreased liquidity, the Fund may have to accept a lower price to sell a security, sell other securities to raise cash, or give up an investment opportunity, any of which could have a negative effect on performance. If the Fund needed to sell large blocks of bonds to meet shareholder redemption requests or to raise cash, those sales could further reduce the bonds’ prices and hurt performance.
- > **Revenue Bond Risk:** The revenue bonds in which the Fund invests may entail greater credit risk than the Fund’s investments in general obligation bonds. In particular, weaknesses in federal housing subsidy programs and their administration may result in a decrease of subsidies available for the payment of principal and interest on certain multi-family housing authority bonds.
- > **Political, Economic and Tax Risk:** Because the Fund invests primarily in municipal securities issued by states and their political subdivisions, the Fund may be particularly affected by the political and economic conditions and developments in those states. Since the Fund primarily invests in municipal securities, the value of the Fund may be more adversely affected than other funds by future changes in federal or state income tax laws.
- > **Sector Concentration Risk:** Because the Fund may invest a significant portion of its assets in health care facility bonds, housing authority bonds, and education bonds, the Fund may be more affected by events influencing these sectors than a fund that is more diversified across numerous sectors.
- > **Valuation Risk:** The Fund may hold securities for which prices from pricing services may be unavailable or are deemed unreliable, in which case the Fund’s procedures for valuing investments provide that the Adviser shall use the fair value of such securities for valuing investments. There is a risk that the fair value determined by the Adviser or the price determined by the pricing service may be different than the actual sale prices of such securities.
- > **Derivatives Risk:** The Fund may incur losses from its investments in options, futures, and options on futures. Investments in such derivative instruments may result in losses exceeding the amounts invested. The Fund may use derivatives for hedging purposes. Compared to conventional securities, derivatives can be more sensitive to changes in interest rates or to sudden fluctuations in market prices and thus the Fund’s losses may be greater if it invests in derivatives than if it invests only in conventional securities. Derivatives can be illiquid and difficult to value. A derivative transaction also involves the risk that a loss may be sustained as a result of the failure of the counterparty to the contract to make required payments.
- > **Rule 144A Securities Risk:** The value and liquidity of these securities may be adversely affected in the event that the number of qualified institutional buyers interested in purchasing 144A securities is limited, the Fund might be unable to dispose of such securities promptly or at reasonable prices, and they may be subject to greater volatility.

- > **Investment Company Risk:** To the extent that the Fund invests in shares of another investment company, it will indirectly absorb its pro rata share of such investment company’s operating expenses, including investment advisory and administrative fees, which will reduce the Fund’s return on such investment relative to investment alternatives that do not include such expenses. In addition, the ability of the Fund to achieve its investment objective will partially depend upon the ability of the acquired fund to achieve its investment objective.
- > **Management Risk:** A strategy used by the investment management team may not produce the intended results.
- > **Temporary Investment Risk:** The Fund may hold cash and/or invest all or a portion of its assets in short-term obligations in response to adverse market, economic or other conditions when the investment management team believes that it is in the best interest of the Fund to pursue such a defensive strategy. The Fund may not achieve its investment objective when it holds cash or invests its assets in short-term obligations.
- > **Cybersecurity Risk:** Cybersecurity breaches may allow an unauthorized party to gain access to Fund assets, shareholder data, or proprietary information, or cause the Fund and/or its service providers to suffer data corruption or lose operational functionality. The issuers of securities in which the Fund invests are also subject to cybersecurity risks, and the value of these securities could decline if the issuers experience cyber attacks or other cybersecurity breaches.

## HISTORICAL PERFORMANCE

The following tables provide information on the Fund’s volatility and performance. The Fund’s past performance before and after taxes is not necessarily an indication of how the Fund will perform in the future. The bar chart below is intended to provide you with an indication of the risks of investing in the Fund by showing changes in the Fund’s performance from year to year for Class S shares.

The table below compares the Fund’s performance over different time periods to that of a broad-based securities market index and a more narrowly-based index that reflects the market sectors in which the Fund invests (each, an “Index”). After-tax returns are calculated using historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor’s tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns are shown for Class S shares only. After-tax returns for Class Y shares will differ.

The performance information reflects Fund expenses, and assumes that all distributions have been reinvested. Each Index is an unmanaged index, has no expenses, and it is not possible to invest directly in an index. Updated performance information is available at [www.sitfunds.com](http://www.sitfunds.com) or by calling 800-332-5580.

### Annual Total Returns for calendar years ended December 31 (Class S)

The Fund’s year-to-date return as of 6/30/25 (not annualized) was -1.30%.

Best Quarter: 6.59% (4Q23)

Worst Quarter: -7.44% (1Q22)

**Average Annual Total Returns for periods ended December 31, 2024**

<b>Sit Tax-Free Income Fund</b>	<b>1 Year</b>	<b>5 Years</b>	<b>10 Years</b>
Class S Return before taxes (inception 9/29/88)	5.30%	069%	2.31%
Class S Return after taxes on distributions	5.28%	0.69%	2.30%
Class S Return after taxes on distributions and sale of Fund shares	4.61%	1.25%	2.55%
Class Y Return before taxes (inception 6/1/21)	5.57%	N/A	N/A
Bloomberg Municipal Bond Index <sup>(1)</sup> (reflects no deduction for fees, expenses or taxes)	1.17%	0.91%	1.67%
Bloomberg 5-Year Municipal Bond Index <sup>(2)</sup> (reflects no deduction for fees, expenses or taxes)	1.05%	0.99%	2.25%

<sup>(1)</sup> A broad-based securities market index that represents the overall domestic debt markets. Effective June 30, 2024, and pursuant to regulatory requirements, the Bloomberg Municipal Bond Index replaced the Bloomberg 5-Year Municipal Bond Index as the Fund's primary performance benchmark to represent a broad-based securities market index. The Fund continues to use the Bloomberg 5-Year Municipal Bond Index as an additional performance benchmark.

<sup>(2)</sup> A more narrowly-based index that reflects the market sectors in which the Fund invests.

**INVESTMENT ADVISER AND PORTFOLIO MANAGERS**

Sit Investment Associates, Inc. serves as the Fund's investment adviser. The Fund's investment decisions are made by a team of portfolio managers and analysts who are jointly responsible for the day-to-day management of the Fund.

The primary portfolio managers of the Fund are:

**Paul J. Jungquist**, Senior Vice President and Senior Portfolio Manager, has served as a portfolio manager of the Fund since 2000.

**Todd S. Emerson**, Vice President and Portfolio Manager, has served as a portfolio manager of the Fund since July 2020 and as a research analyst of the Fund from August 2018 through July 2020.

**Kevin P. O'Brien**, Vice President and Portfolio Manager, has served as a portfolio manager of the Fund since July 2020 and as a research analyst of the Fund from August 2018 through July 2020.

**PURCHASE AND SALE OF FUND SHARES**

The minimum initial investment for Class S shares of the Fund is \$5,000, and the minimum initial investment for Class Y shares of the Fund is \$1,000,000. The minimum subsequent investment for either share class is \$100. The Fund's shares are redeemable. In general, you may buy or redeem shares of the Fund on any business day by mail (Sit Mutual Funds, P.O. Box 534459, Pittsburgh, PA 15253-4459), by phone (1-800-332-5580), or online if your account has online privileges ([www.sitfunds.com](http://www.sitfunds.com)).

For additional information, please see "Buying and Selling Shares" in the Prospectus.

**TAX INFORMATION**

The Fund intends to meet certain federal tax requirements so that distributions of tax-exempt interest income will be treated as "exempt-interest dividends." These dividends are not subject to regular federal income tax (except to the extent you have borrowed to finance the purchase of your shares). However, the Fund may invest up to 20% of its net assets in municipal securities subject to the federal alternative minimum tax. Any portion of exempt-interest dividends attributable to interest on these securities may increase some shareholders' federal alternative minimum tax. The Fund expects that its distributions will consist primarily of exempt-interest dividends. The Fund's exempt-interest dividends may be subject to state or local income taxes.

Tax-exempt interest income is not included in net investment income for purposes of the federal net investment tax.

Distributions to the shareholder paid from any interest income that is not tax-exempt and from any short-term or long-term capital gains will be taxable whether you reinvest those distributions or receive them in cash. Distributions paid from a Fund's net long-term capital gains, if any, are generally taxable to you as long-term capital gains, regardless of how long you have held your shares.

## **PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES**

If you purchase the Fund's shares through a broker-dealer or other financial intermediary (such as a bank or financial adviser) the financial intermediary may impose account charges. The Fund and its related companies may also pay that intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary to recommend the Fund over another investment. Ask your intermediary or visit your intermediary's website for more information.
